FOREWORD

The Government of Kenya (GoK) is committed to ensuring that policy objectives for Education, Training and Research meet the aspirations of the Kenya Constitution 2010, the Kenya Vision 2030, National Curriculum Policy 2019, the United Nations Sustainable Development Goals (SDGs) and the Regional and Global conventions to which Kenya is a signatory.

Towards achieving the mission of Basic Education, the Ministry of Education (MoE) embarked on a reform process that culminated in the adoption of a Competency Based Education (CBE) system in 2017. This came after extensive research, stakeholder engagement international benchmarking and consideration of the 21st Century socio-economic realities. CBE in Kenya adopted a 2-6-3-3 structure where the numbers indicate the years learners take at various levels in Basic Education (Pre-Primary, Primary, Junior School and Senior School; respectively). CBE has for critical elements: The Competency Based Curriculum (CBC), Pedagogy (teaching and learning), Resources and the Competency Based Assessment. The MoE oversees the provision of resources while the other components (Curriculum, Pedagogy and Assessment are handled by the Kenya Institute of Curriculum Development, (KICD), Teachers Service Commission, (TSC) and the Kenya National Examinations Council (KNEC); respectively.

KICD has successfully developed curriculum designs that have been used in the implementation of the Competency Based Curriculum (CBC) for the Pre-Primary, Primary and Juniors School levels. The first cohort of learners pursuing the CBC will transit to Senior School (Grades 10-12) in 2026. The curriculum designs at this level are expected to facilitate learners to acquire relevant knowledge, skills, values and attitudes (competencies) in preparation for tertiary education and the world of work. I urge all agencies of the GoK and other stakeholders in Education to use the designs to plan for effective and efficient implementation of Competency Based Education.

MR. JULIUS MIGOS OGAMBA
CABINET SECRETARY,
MINISTRY OF EDUCATION

DRAFT

PREFACE

The Ministry of Education (MoE) through the State Department for Basic Education, has been implementing the Competency Based Education (CBE) since the adoption of the *Basic Education Curriculum Framework* (KICD, 2017) during the national convention in January 2017. The Kenya Institute of Curriculum Development (KICD) developed Competency Based Curriculum (CBC) designs that were used for pilot studies in 2017 and 2018 before the roll-out at Pre-Primary and Primary Early Year (Grades 1 to 3 in 2019. The curriculum was then introduced in the subsequent grades through *a phase in –phase out* strategy, to ensure a smooth transition. Currently, the first cohort of CBC learners are at Grade 9 – the last grade at Junior School. The implementation of CBE has since benefited immensely from the recommendations of the *Presidential Working Party on Education Reforms* (PWPER) that were released in August, 2023 and fully implemented, in terms of curriculum designs.

Grade 10 is the entry class of the Senior School (SS) in Basic Education, a very critical level where learners shall have the opportunity to focus on pathways, tracks and subjects of their choices guided by the potentials demonstrated at earlier levels. The Senior School shall; therefore, form a foundation for further education and training and/or initial competencies for the Industry. This is an important step in the realisation of the Vision and Mission of the curriculum reforms as enshrined in the Sessional Paper No. I of 2019 whose title is: *Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development* in Kenya.

The Grade 10 curriculum designs, like the designs for earlier levels, are anchored on the Kenyan National Goals of Education. They also present essence statements, general and specific expected learning outcomes as well as strands and sub strands for the learning areas. The designs also outline suggested learning experiences, key inquiry questions, core competencies, Pertinent and Contemporary Issues (PCIs), values and suggested assessment.

The Ministry of Education, through the State Department for Basic Education commits to provide resources and relevant guidelines for a smooth implementation of the CBC. It is expected that the designs will guide teachers to effectively facilitate learners to attain the expected learning outcomes for Grade 10 specifically and Senior School in general.

AMB. PROF. JULIUS BITOK, MBS
PRINCIPAL SECRETARY
STATE DEPARTMENT FOR BASIC EDUCATION
MINISTRY OF EDUCATION

DRAFT

ACKNOWLEDGEMENT

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2019) mandates the Institute to develop curricula, programmes and curriculum support materials for Basic and Tertiary Education and Training. The curriculum development process involves research, international benchmarking and robust stakeholder engagement. Through a systematic and consultative process, the KICD conceptualised the Competency Based Curriculum (CBC) as captured in the *Basic Education Curriculum Framework* (KICD,2017), that responds to the demands of the 21st Century, the United Nations Sustainable Development Goals (SDGs). African Agenda 2063, East African Community Protocol and the aspirations captured in the Kenya Constitution 2010 and the Kenya Vision 2030.

KICD receives its funding from the GoK to enable the successful achievement of the stipulated mandate and implementation of the Government and Education sector plans. The Institute also receives support from development partners targeting specific programmes. The Grade 10 curriculum designs were developed with the support of the World Bank and GoK through the *Kenya Primary Education Equity in Learning Programme* (KPEELP); a project coordinated by the MoE. Therefore, the Institute is very grateful to the GoK, through the MoE and the development partners (especially The World Bank) for support in terms of policy guidance, resource provision and capacity building. Specifically, I wish to express special thanks to the Cabinet Secretary-MoE and the Principal Secretary-State Department for Basic Education.

We also wish to acknowledge the KICD curriculum development officers and other staff, all teachers, educators who took part as panellists; the institutions that participated and representatives of various stakeholders for their roles in the development of the Grade 10 curriculum designs. In relation to this, we acknowledge the support of the Chief Executive Officers of the Teachers Service Commission (TSC), the Kenya National Examinations Council (KNEC) and other agencies in the sector for their support in the process of developing these designs.

Finally, we are very grateful to the KICD Council Chairperson and other members of the Council for consistent guidance and oversight. We assure all teachers, parents and other stakeholders that these curriculum designs will effectively guide the implementation of the CBE at Grade 10 and preparation of learners for transition to further education and training or the world of work.

PROF. CHARLES O. ONG'ONDO, PhD, MBS.

NATIONAL GOALS OF EDUCATION

Education in Kenya should:

1. **Foster nationalism and patriotism and promote national unity.**
   Kenya's people belong to different communities, races and religions, but these differences need not divide them. They must be able to live and interact as Kenyans. It is a paramount duty of education to help young people acquire this sense of nationhood by resolving conflicts and promoting positive attitudes of mutual respect which enable them to live together in harmony and foster patriotism in order to make a positive contribution to the life of the nation.

2. **Promote the social, economic, technological and industrial needs for national development.**
   Education should prepare the youth of the country to play an effective and productive role in the life of the nation.
   a) **Social Needs**
      Education in Kenya must prepare children for changes in attitudes and relationships which are necessary for the smooth progress of a rapidly developing modern economy. There is bound to be a silent social revolution following in the wake of rapid modernization. Education should assist our youth to adapt to this change.
   b) **Economic Needs**
      Education in Kenya should produce citizens with the skills, knowledge, expertise and personal qualities that are required to support a growing economy. Kenya is building up a modern and independent economy which is in need of an adequate and relevant domestic workforce.
   c) **Technological and Industrial Needs**
      Education in Kenya should provide learners with the necessary skills and attitudes for industrial development. Kenya recognizes the rapid industrial and technological changes taking place, especially in the developed world. We can only be part of this development if our education system is deliberately focused on the knowledge, skills and attitudes that will prepare our young people for these changing global trends.

3. **Promote individual development and self-fulfilment**
   Education should provide opportunities for the fullest development of individual talents and personality. It should help children to develop their potential interests and abilities. A vital aspect of individual development is the building of character.

DRAFT

4. **Promote sound moral and religious values.**
   Education should provide for the development of knowledge, skills and attitudes that will enhance the acquisition of sound moral values and help children to grow up into self-disciplined, self-reliant and integrated citizens.

5. **Promote social equity and responsibility.**
   Education should promote social equity and foster a sense of social responsibility within an education system which provides equal educational opportunities for all. It should give all children varied and challenging opportunities for collective activities and corporate social service irrespective of gender, ability or geographical environment.

6. **Promote respect for and development of Kenya's rich and varied cultures.**
   Education should instill in the youth of Kenya an understanding of past and present cultures and their valid place in contemporary society. Children should be able to blend the best of traditional values with the changing requirements that must follow rapid development in order to build a stable and modern society.

7. **Promote international consciousness and foster positive attitudes towards other nations.**
   Kenya is part of the international community. It is part of the complicated and interdependent network of peoples and nations. Education should therefore lead the youth of the country to accept membership of this international community with all the obligations and responsibilities, rights and benefits that this membership entails.

8. **Promote positive attitudes towards good health and environmental protection.**
   Education should inculcate in young people the value of good health in order for them to avoid indulging in activities that will lead to physical or mental ill health. It should foster positive attitudes towards environmental development and conservation. It should lead the youth of Kenya to appreciate the need for a healthy environment.

ESSENCE STATEMENT

Creative Arts and Sports in Junior School lays a strong foundation for lifelong physical activity by developing learners' basic motor skills, introducing them to games, athletics, swimming, physical fitness components, and fostering teamwork and cultural appreciation through indigenous games. As learners progress to Senior School, Physical Education builds upon these foundational experiences by enhancing their knowledge, refining physical abilities, and strengthening socio-emotional competencies that support a healthy lifestyle and overall well-being. At this stage, learners gain a deeper understanding of sportsmanship, embrace the principles of clean and ethical sport, and develop essential life skills such as effective communication, teamwork, and responsible decision-making.

In Senior School, the learning of Physical Education will be undertaken through a learner-centered, practical, and experiential approach that emphasizes active participation, inquiry-based learning, and collaborative activities. Key pedagogies will include **demonstration and practice, peer teaching, project-based learning,** and **outdoor experiential learning,** ensuring that learners not only acquire advanced motor skills but also develop critical thinking, communication, leadership, and problem-solving abilities. The curriculum is designed to refine learners' physical competencies across various areas including games, athletics, swimming and outdoor adventure activities. By integrating values such as discipline, integrity, teamwork, and environmental responsibility, learners will be well-equipped to transition into university and tertiary colleges, or directly into the world of work.

Physical Education offers diverse career opportunities across various fields including PE teaching, coaching, fitness training, and recreational facilitation, physiotherapy, kinesiology, professional coaching and sports management. There is also a growing demand in areas such as youth development, sports journalism, talent identification and community sports programs.

DRAFT

SUBJECT GENERAL LEARNING OUTCOMES

By the end of Senior School, the learner should be able to:

a) Use technology appropriately to learn and enhance mastery of skills in Physical Education.
b) Develop suitable physical activity skills to prevent or overcome challenges associated with personal health.
c) Engage actively in physical activities in and out of school to enhance knowledge, skills and attitudes in Physical Education.
d) Develop talents and abilities for self-fulfilment in Physical Education.
e) Demonstrate environmental awareness while engaging in physical activities.
f) Demonstrate desirable behaviour and commitment towards improvement of personal life, community, nation and the world.
g) Acknowledge individual differences while engaging in physical activities.
h) Develop self-management, interpersonal relations and effective decision making skills through physical activities.
i) Exhibit appropriate attitudes and values that promote pertinent and contemporary issues through participation in physical activities.

STRAND 1.0: GAMES

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Games	**1.1 Football** • *Start and restart* • *Lofted pass* • *Marking and Dodging* • *Heading* • *Goal keeping*	By the end of the Sub Strand, the learner should be able to: a) describe starting and restarting skills in Football game, b) perform starting and restarting skills in Football for skill acquisition, c) execute lofted pass, marking and dodging in Football for skill acquisition, d) perform Heading and goalkeeping in Football for skill acquisition, e) value the game of Football in promoting	The learner is guided to: • search and watch videos or watch live game of Football and observe start and restart skills (Kick off, corner kick, goal kick, free kick Throw-in) • demonstrate starting and restarting skills in Football, • practise starting and restarting while observing safety of self and peers, • demonstrate stance, contact and follow through in Lofted pass, • collaboratively, practise stance, contact and follow through in Lofted pass, • demonstrate body positioning, spacing, communication and blocking in marking and dodging, • practise with peer's body positioning, spacing, communication and blocking in marking and dodging,	1. How do effective techniques in Football influence overall performance? 2. Why are marking and dodging essential skills in a Football game? 3. Why is decision making skill essential in dodging, marking and goalkeeping in Football?

DRAFT

		the wellbeing of an individual.	• demonstrate stance, body alignment, head contact, follow through in Heading the ball in Football, • practise stance, body alignment, head contact, follow through in Heading the ball in Football, • demonstrate grip, stance, throw and footwork in Goalkeeping • practice grip, stance, throw and footwork in Goalkeeping, • play mini Football games while applying the Starting and restarting in Football, Lofted pass, Marking and Dodging, Heading and Goal keeping skills observing care for self and others, • observe teamwork, fair play and apply effective communication while playing Football, • reflect and critique with peers on the skills learnt and values acquired in playing Football for individual wellbeing.	

DRAFT

Core Competencies to be developed:

- Digital literacy**:** The learner effectively uses digital technology to search for and watch videos or live Football games, observing start and restart skills in Football.
- Critical thinking and problem solving: The learner adapts and makes strategic decisions that enhance their overall performance in practising lofted passes, marking opponents, dodging defenders, and goalkeeping during a Football game.
- Self-efficacy**:** The learner confidently expresses ideas and engages with peers on the skills and values learnt in playing Football.

Values:

- Respect: The learner enhances positive regard for self and others as they practise starting and restarting while observing safety of self and others.
- Unity**:** The learner embraces teamwork, collaboratively practising starting, restarting, lofted passing, marking, dodging, goalkeeping, and heading skills while prioritising safety.
- Responsibility**:** The learner follows safety precautions while playing mini Football games, applying learned skills and showing care for self and others.

Pertinent and Contemporary Issues (PCIs):

- Healthy lifestyle: The learner's overall health and fitness is enhanced while playing Football games.
- Interpersonal skills: This is enhanced as the learner interacts with others through activities that involve teamwork, fairplay and application of effective communication while playing Football games.

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Games	**1.2. Netball** ● *Flip pass* ● *Side pass* ● *Running pass* ● *Running shot*	By the end of the Sub Strand, the learner should be able to: a) examine flip pass, side pass, running pass and running shot in Netball game, b) perform flip pass and side pass in Netball for skill acquisition, c) execute running pass and running shot in Netball for skill acquisition, d) embrace the skills learnt in Netball for self fulfilment.	The learner is guided to: ● watch video clips or live performance of a Netball game and observe the execution of flip, side, side pass, running pass and running shot, ● demonstrate stance, grip, release, follow through in executing flip pass, ● collaboratively, practise stance, grip, release, follow through in flip pass, ● demonstrate stance, timing, release, and accuracy when performing side pass, ● practise side pass with peers while observing safety of self and others, ● demonstrate grip, movement and release in running pass, ● collaboratively, practise running pass with peers,	1. How can practicing skills in Netball help learners develop empathy and teamwork while maintaining a positive team dynamic? 2. How do the progressive steps in the flip pass, side pass, running pass, and running shot contribute to effective performance in a Netball game?

DRAFT

			• demonstrate grip, footwork, release and follow through when performing running shot, • practise shooting using the running shot collaboratively with peer review, • practise the skills learnt in a mini Netball game while demonstrating empathy and effectively resolving conflicts during play, • observe and assess peers' performance in flip pass, side pass, running pass and running shot in Netball, • reflect, share feedback and critique on the performance of flip pass, side pass, running pass and running shot in the mini Netball game.	

Core competencies to be developed:

- Self- efficacy: The learner confidently showcases acquired skills while playing Netball.
- Creativity and imagination**:** The learner performs the learnt skills and explores new ideas of the game during practise sessions.
- Critical thinking and problem solving: The learner makes decisions on the skill to execute during a mini Netball Game.

DRAFT

Values:

- Responsibility: The learner actively seeks and responds to feedback on the flip pass, side pass, running pass, and running shot to improve their skills in Netball.
- Unity: The learner participates in groups while playing Netball games.
- Respect: The learner watches videos and discusses Netball skills in passes and running shots while accommodating others' opinions.

Pertinent and Contemporary Issues (PCIs):

- Healthy lifestyle: The learner's overall health is enhanced while playing Netball games.
- Social cohesion: The learner interacts with others and embraces equity while playing Netball games.

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Games	**1.3 Basketball** ● *Dribbling* - *crossover* ● *Faking and Feinting* ● *Shooting* *-Set shot* *-Lay-up shot* *-Jump shot*	By the end of the Sub Strand, the learner should be able to: (a) describe dribbling, faking, feinting and shooting in Basketball game, (b) execute crossover dribbling, feinting and faking in Basketball for skill acquisition, (c) perform set shot, lay-up shot and jump shot in Basketball for skill acquisition, (d) embrace different skills in Basketball in promoting interpersonal skills among learners.	The learner is guided to: ● use digital resources to search for video clips or watch live performance of Basketball games and observe crossover dribble, feinting, faking and set shot, lay-up shot and jump shot. ● brainstorm on the steps in performing crossover dribble, feinting, faking and set shot, lay-up shot and jump shot and make presentations, ● demonstrate stance, ball control, change of direction, hand positioning, deception, timing and follow through aspects of crossover dribbling in Basketball, ● practise crossover dribbling in Basketball while observing safety, ● demonstrate faking and feinting with peers, ● collaboratively, practise faking and feinting with peers,	1. Why should a learner use different dribbling skills in Basketball game? 2. How does practicing different skills in Basketball enhance interpersonal relations?

DRAFT

			• demonstrate stance, grip, release and follow through in set shot, lay-up shot and jump shot, • collaboratively, apply crossover, dribbling, faking and feinting, set shot, lay-up shot and jump shot by conducting mini Basketball games for feedback, • demonstrate intrapersonal and interpersonal skills during practise sessions for individual fulfilment.	

Core Competencies to be developed:

- Digital Literacy: The learner uses digital devices to search and observe videos on the skills used in Basketball.
- Self-efficacy: The learner demonstrates confidence while dribbling and dodging opponents during mini games of Basketball.
- Citizenship: The learner shows respect for others while playing Basketball.

Values:

- Social justice: The learner demonstrates fair play, observing rules during Basketball games.
- Unity: The learner collaborates with others while playing mini Basketball games.
- Peace: The learner avoids hurting others while playing Basketball.

Pertinent and Contemporary Issues (PCIs):

- Self-esteem: The learner perfects and executes dribbling and dodging in Basketball.
- Safety and Security: The learner embraces sportsmanship and fair play while playing Basketball.

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.0 Games	**1.4 Badminton** ● *Forehand clear* ● *Backhand clear* ● *Forehand drop* ● *Backhand drop* ● *Service* *-long* *-short* ● *Strokes* *-Smash (Backhand and forehand)* *-Drives and Blocks* - Net shot	By the end of the Sub Strand, the learner should be able to: (a) describe forehand clear, backhand clear, forehand drop, back hand drop, service and strokes in Badminton game, (b) perform forehand and backhand clear in Badminton for skill acquisition, (c) execute forehand and backhand drop in Badminton for skill acquisition, (d) execute service and strokes in Badminton for skill acquisition, (e) appreciate playing Badminton to promote good health and physical fitness.	The learner is guided to: ● watch virtual or live performances of a Badminton game and observe execution of Forehand clear, Backhand clear, Forehand drop, Backhand drop, service and strokes. Make presentations, ● demonstrate grip, stance, contact and follow through in performing forehand and backhand clear in Badminton. ● collaboratively, practise forehand and backhand clear shot, ● demonstrate grip, stance, swing and follow through in performing forehand drop and backhand drop in Badminton, ● practise forehand drop and backhand drop and get feedback, ● demonstrate stance, grip, swing and follow through when	1. Why are forehand and backhand shots essential for effective gameplay in Badminton? 2. How does the grip affect the execution of Badminton shots?

DRAFT

			performing long and short service in Badminton game, ● practise long and short service in Badminton game, ● demonstrate stance, grip, swing and follow through when performing a backhand and forehand smash in Badminton game, ● collaboratively, practise backhand and forehand smash, ● demonstrate proper stance, grip, and arm action while performing drives and blocks with composure and control, ● practise drives and blocks, ● demonstrate grip, stance, swing and follow through when performing Net shot in Badminton game, ● practise Net shot with peers for feedback to enhance assertiveness, ● collaboratively practice the skills learned in playing mini Badminton games while sharing	

DRAFT

			equipment, promoting fair play and ensuring safety, • critique their Badminton performance with peers using effective communication strategies to provide constructive and supportive feedback.	

Core Competencies to be developed:

- Critical thinking and problem solving: The learner strategically selects and executes strokes to adapt to various game situations in Badminton.
- Self-efficacy: The learner confidently executes Badminton skills with precision and control.
- Learning to learn: The learner applies acquired techniques in Badminton effectively in mini-games.

Values:

- Love: The learner shares resources with peers while playing a Badminton game.
- Integrity: The learner demonstrates honesty, fairness, and ethical behaviour while playing a Badminton game.
- Peace: The learner exhibits composure and control while practising strokes in Badminton with peers.

Pertinent and Contemporary Issues (PCIs):

- Self-awareness skills: The learner gains understanding of personal strengths and areas for improvement when giving feedback while participating in a Badminton game.
- Healthy lifestyle: The learner improves their physical fitness and overall well-being while playing the Badminton game.

DRAFT

Suggested Assessment Rubrics for Games

Level / Indicators	Exceeds expectations	Meets expectations	Approaches expectations	Below expectations
Ability to perform start, restart, lofted pass, marking and dodging, goalkeeping and heading skills in Football	The learner performs 6-8 skills in Football skillfully.	The learner performs 6-8 skills in Football.	The learner performs 3-5 skills in Football	The learner performs 1-2 skills in Football.
Ability to perform, flip pass, side pass, running pass and running shot skills in Netball following the phases: ● Flip pass ● (*grip*, f*ootwork, release, follow-through)* ● Side pass (*grip*, f*ootwork, release, follow-through)* ● Running pass phases (*grip*, f*ootwork, release, follow-through)* ● Running shot phases (*grip*, f*ootwork, release, follow-through)*	The learner performs the 4 skills in Netball skillfully following all the phases.	The learner performs the 4 skills in Netball following all the phases.	The learner performs 2-3 skills in Netball following all the phases.	The learner performs 1 skill in Netball following all the phases.

DRAFT

Level / Indicators	Exceeds expectations	Meets expectations	Approaches expectations	Below expectations
Ability to execute crossover dribble, dodging, set shot, lay up shot and jump shot in Basketball following the aspects: ● Crossover dribble (*stance, hand positioning, timing, movement).* ● Dodging (*stance, footwork, change direction, accelerate).* ● Set shot, lay up shot and jump shot *(stance, grip, release and follow through)*	Executes the 4 aspects of crossover dribble, dodging, set shot, lay up shot and jump shot in Basketball consistently.	Executes the 4 aspects of crossover dribble, dodging, set shot, lay up shot and jump shot in Basketball.	Executes 2-3 aspects of crossover dribble, dodging, set shot, lay up shot and jump shot in Basketball.	Executes 1 aspect of crossover dribble, dodging, set shot, lay up shot and jump shot in Basketball.
Ability to perform Forehand clear, Backhand clear, Forehand drop shot, Backhand drop and *forehand and backhand Strokes* (*Drives, Smash, Blocks, Net shots Service)* in Badminton using the aspects:	Performs Forehand clear, Backhand clear, Forehand drop shot, Backhand drop shot and *forehand and backhand Strokes* in Badminton	Performs Forehand clear, Backhand clear, Forehand drop shot, Backhand drop shot and *forehand and backhand Strokes* in Badminton using 5-6 aspects.	Performs Forehand clear, Backhand clear, Forehand drop shot, Backhand drop shot and *forehand and backhand Strokes* in Badminton using 3-4 aspects.	Performs Forehand clear, Backhand clear, Forehand drop shot, Backhand drop shot and *forehand and backhand Strokes* in Badminton using l-2 aspects.

DRAFT

Level / Indicators	Exceeds expectations	Meets expectations	Approaches expectations	Below expectations
• *grip* • *stance* • *footwork* • *swing* • *contact* • *follow through*	using 5- 6 aspects skillfully.			

DRAFT

STRAND 2.0 ATHLETICS

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Athletics	**2.1 Hurdling** *Techniques* • *Positioning* • *Take -off* • *acceleration* • *approach to the hurdle* • *Hurdle clearance* • *Landing* • *Recovery* • *Finishing*	By the end of the Sub Strand, the learner should be able to: a) examine Hurdling techniques in athletics, b) perform Hurdling techniques in athletics for skill acquisition, c) value the acquisition of Hurdling skills for individual wellness.	The learner is guided to: • search and watch videos or watch a live performance of a Hurdling races (100mH,110mH, 400mH) and observe positioning, takeoff, acceleration, approach, hurdle clearance, landing, recovery and finishing, • collaboratively brainstorm with peers and make presentations on various Hurdling techniques; takeoff, acceleration, approach, hurdle clearance, landing, recovery, and finishing in athletics, • demonstrate positioning and take-off in Hurdles in athletics,	1. How is safety enhanced in Hurdling races? 2. How does practising Hurdling enhance focus and discipline among learners?

DRAFT

			• practise positioning and take-off in Hurdles in athletics observing safety, • demonstrate acceleration and approaching the hurdles in athletics, • practise acceleration and approaching the hurdles in athletics observing safety of self, • demonstrate hurdle clearance, landing and recovery in performing Hurdling, • practise hurdle clearance, landing and recovery in performing Hurdling races observing safety, • demonstrate finishing in Hurdling, • practise finishing in Hurdling while observing safety, • collaboratively, apply the skills learnt to participate in conditioned Hurdling races in teams observing safety, focus and discipline,	

DRAFT

			• reflect on and share experiences with peers on how participating in Hurdling races helps an individual develop resilience to cope with emotions and manage stress.	

Core Competencies to be developed:

- Self-efficacy: The learner demonstrates the ability to make quick decisions on executing techniques effectively in Hurdling.
- Creativity and imagination: The learner explores and develops innovative ways of executing hurdling techniques.
- Communication and collaboration: The learner contributes in brainstorming sessions and making class presentations

Values:

- Social justice: The learner takes turns during class discussions on Hurdling techniques.
- Unity: The learner collaborates with others when practising Hurdling techniques.
- Responsibility: The learner observes safety for self and others during Hurdling practise sessions.

Pertinent and Contemporary Issues (PCIs):

- Interpersonal skills: The learner demonstrates self-esteem upon mastery of Hurdling techniques
- Healthy lifestyle: The learner enhances wellness and fitness while performing Hurdling techniques.

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Athletics	**2.2 Middle Distances Races** *Techniques* ● *starting* ● *acceleration* ● *pacing* ● *running form and posture* ● *stride length* ● *breathing* ● *finishing* ● *recovery*	By the end of the Sub Strand, the learner should be able to: a) describe techniques in performing middle distance races, b) perform techniques in middle distance races for skill acquisition, c) acknowledge techniques in middle distance races for individual wellness and fitness.	The learner is guided to: ● use print or digital resources to search and watch performance of middle distance races (800m, 1500m), observe starting, acceleration, pacing, running form, stride length, breathing techniques, finishing and recovery and share their observations with peers, ● demonstrate starting, acceleration, pacing, running form in performing middle distance races, ● practise starting, acceleration, pacing, running form, ● demonstrate stride length, breathing, finishing and recovery in middle distance races, ● practise stride length, breathing, finishing and recovery in middle distance races, ● apply the skills learned by participating collaboratively in	1. How does pacing contribute to performance in middle distance races? 2. Why is it necessary to master techniques in middle-distance races?

DRAFT

			conditioned middle-distance races while demonstrating sportsmanship, respect, fairness, and perseverance, • share experiences on their performances and reflect on how participating in middle distance races contribute to personal wellness and fitness.	

Core Competencies to be developed:

- Learning to learn: The learner builds new experiences in performing techniques in middle distance races.
- Digital literacy: The learner manipulates digital devices to search and watch video clips on techniques in Middle distance races.
- Citizenship: The learner shows tolerance and understands different viewpoints during demonstrations and practice of techniques.

Values:

- Peace: The learner demonstrates fairness when participating in Middle distance races.
- Social justice: The learner accords each other an opportunity to participate during demonstration and practice sessions.
- Responsibility: The learner observes safety while executing techniques in Middle distance races.

Pertinent and Contemporary Issues (PCIs):

- Citizenship education: The learner is provided with an equal opportunity to practice techniques in Middle distance races.
- Self-management skills: The learner enhances self-esteem when demonstrating the techniques in Middle distance races confidently.

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
2.0 Athletics	**2.3 Cross Country** *Techniques* ● *starting* ● *pacing* ● *terrain adaptation* ● *breathing* ● *finishing* ● *recovery* **(12 Hours)**	By the end of the Sub Strand, the learner should be able to: a) examine techniques in Cross country for performance in athletics, b) perform techniques in Cross country for skill acquisition, c) appreciate techniques in Cross country for fun, good health and fitness.	The learner is guided to: ● search and watch videos/ demonstrations/pictures/ charts or live Cross country races to observe techniques starting, pacing, breathing, finishing and recovery in Cross country and share their observations with peers, ● demonstrate a curved start and pacing in Cross country, ● practise a curved start and pacing in Cross country while observing safety, ● demonstrate body posture, footwork, arm action in uphill, downhill and different terrains in performing Cross country, ● practise body posture, footwork, arm action in uphill, downhill and different terrains in performing Cross country,	1. How can cross-country running benefit overall fitness and health? 2. How do athletes cope with challenges of different terrains while performing Cross country?

DRAFT

			• demonstrate breathing, finishing and recovery techniques in cross country, • practise breathing, finishing and recovery techniques in cross country, • apply the skills learnt in conditioned Cross country races in different terrains, while caring and conserving the environment for sustainability, • share with peers what they found challenging and enjoyable experiences with health and fitness while participating in the race.	
Core Competencies to be developed: • Digital literacy: The learner uses digital devices to search and observe techniques in Cross country. • Learning to learn: The learner applies the skills learnt when participating in conditioned Cross country races. • Communication and collaboration: The learner shares information with peers regarding the different techniques in a Cross country race.				

DRAFT

Values: ● Responsibility: The learner adheres to safety precautions as they run in different terrains during a conditioned Cross country race. ● Integrity: The learner adheres to the rules while practising different techniques in Cross country. ● Respect: The learner accommodates the views of their peers as they make presentations.
Pertinent and Contemporary Issues (PCIs): ● Healthy lifestyle: The learner gains physical fitness by performing techniques in Cross country races. ● Intrapersonal skills: The learner gains self-awareness through assessment of their abilities and appreciating each other. ● Environmental awareness**:** The learner values nature and sustainable land use by conserving green spaces while participating in a Cross-country race.

STRAND 3.0 OUTDOOR EDUCATION

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question
3.0 Outdoor Education-Camping	**3.1 Planning for Camping** ● *selecting a campsite* ● *design requirements for camping adventure*	By the end of the Sub Strand, the learner should be able to: a) explore considerations in selecting a campsite, b) design requirements for a camping adventure for skill acquisition, c) appreciate the importance of planning for camping as an adventure.	The learner is guided to: ● watch video clips on camping and observe set up, gears and equipment, environmental conditions and share their findings with peers, ● brainstorm on essential camping gear and equipment and share their findings, ● collaboratively, discuss factors such as *safety, terrain and ground accessibility, environmental and nutritional considerations* in selecting a campsite, ● discuss the essential requirements for designing a camping adventure such as; *purpose, location and accessibility, safety and security, duration, group composition, essential gear and equipment, food and water supply, environmental responsibility, budget and logistics,*	1. How can life skills enhance planning for camping as an adventure? 2. How do you plan for a successful camping adventure?

DRAFT

			• collaboratively, develop a programme for camping adventure exploring leadership and teamwork skills, • brainstorm with peers on the importance of planning for a camping adventure.	
Core Competencies to be developed: • Self-efficacy: The learner confidently plans for camping adventure. • Learning to Learn: The learner gains insights from different perspectives while discussing the essential requirements for designing a camping adventure. • Citizenship: The learner collaborates to develop a camping adventure program, they explore and develop leadership and teamwork skills.				
Values: • Social justice: The learner shares roles with others when planning for camping adventure. • Love: The learner works collaboratively with others when planning for a camping adventure. • Unity: The learner works harmoniously with others to develop camp programme.				
Pertinent and Contemporary Issues (PCIs): • Climate change awareness: The learner prepares for unpredictable weather patterns caused by climate change while planning for camping adventure. • Safety and emergency preparedness: The learner establishes mechanisms for responding to unpredictable concerns during camping adventure.				

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
3.0 Outdoor Education-Camping	**3.2 Setting up a Campsite** ● *features of a campsite* ● *activities in setting up a campsite*	By the end of the Sub Strand, the learner should be able to: a) examine features of a campsite for orientation, b) perform activities in setting up a campsite for skill acquisition, c) appreciate setting up a campsite as an avenue for fun and enjoyment.	The learner is guided to: ● conduct a library search or online sources on the features of a campsite and share findings, ● collaboratively, brainstorm on the features of a campsite such as *tent area, cooking area, dining area, food storage, waste disposal, water source, fire pit, sanitation* and share their findings, ● model a campsite layout in groups and display for feedback, ● carry out activities of setting up a campsite in teams such *as clearing the site, tent pitching, setting up fireplace, waste disposal site, water source/storage, food storage facility and hygiene corner,* ● reflect on the value of setting up a campsite as a source of fun and discovery in real-life situations and share their views	1. Why is safety important when setting up a campsite? 2. How does resourcefulness and teamwork contribute to setting up a campsite?

DRAFT

Core Competencies to be developed:

- Critical thinking and problem solving: the learner works in teams to set up a campsite, making strategic decisions on the process of setting up a campsite.
- Creativity and imagination: The learner collaborates to design and model a campsite layout, incorporating key features such as tent area, cooking areas and safety zones.
- Citizenship: The learner develops appreciation and respect for peers while setting up a campsite.
- Self- efficacy: The learner confidently executes the setting up of a camp.

Values:

- Love: The learner ensures safety of others while setting up a campsite.
- Respect: The learner recognizes the contribution of peers while setting up a campsite.
- Responsibility: The learner observes safety while setting up a campsite.

Pertinent and Contemporary Issues (PCIs):

- Intrapersonal skills: The learner deals with emotions while setting up a campsite.
- Safety and security: The learner carefully handles tools and equipment when setting up a campsite..

DRAFT

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
3.0 Outdoor Education-Camping	**3.3 Camping Activities** ● *Activities during camping*	By the end of the Sub Strand, the learner should be able to: a) examine activities during camping adventure, b) perform activities during camping adventure for skill mastery, c) embrace camping adventure as an important avenue for instilling life skills.	The learner is guided to: ● search and watch videos on activities carried out during camping, ● discuss with peers' various activities carried out at night and daytime during camping adventure such as trekking, wildlife watching, tree and plant identification, fun and recreational activities, campfire activities, first aid practice, eco talks, cook meals, ● conduct camping adventure within the school or its surrounding while observing safety, share experiences and life skills lessons learnt, ● reflect and share with peers on self-management, interpersonal, decision making and environmental awareness skills that are enhanced through camping adventure.	1. How does participating in camping activities benefit an individual? 2. How does a camping experience help in developing essential life skills such as teamwork, problem-solving, and self-reliance?

DRAFT

Core Competencies to be developed: ● Citizenship: The learner expresses and accommodates different viewpoints when practising activities carried out during camping. ● Digital literacy: The learner uses digital gadgets in searching and watching video clips on activities carried out during camping. ● Communication and collaboration: the learner engages in a discussion with peers about various activities conducted during both nighttime and daytime in a camping adventure.
Values: ● Respect: The learner appreciates diverse opinions when carrying out activities during camping. ● Love: The learner collaboratively conducts camping adventure activities with others. ● Responsibility: The learner observes safety precautions while carrying out activities during camping.
Pertinent and Contemporary Issues (PCIs): ● Sustainable resource use: The learner conserves water, firewood and other natural resources during camping. ● Safety and security: The learner actively engages in providing first aid during emergencies, maintaining proper sanitation and responding to risks related to animals and insects. ● Interpersonal skills: The learner reflects and shares with peers regarding aspects of environmental awareness.

DRAFT

Suggested Assessment Rubric for Outdoor Education

Level / Indicators	Exceeds Expectations	Meets Expectations	Approaches Expectations	Below Expectations
Planning for Camping Ability to explore considerations in selecting a campsite; such as ● *safety* ● *terrain and the ground* ● *accessibility* ● *environmental* ● *nutritional*	Explores considerations in selecting a campsite using all the aspects comprehensively.	Explores considerations in selecting a campsite using all aspects.	Explores considerations in selecting a campsite using some aspects.	Explores considerations in selecting a campsite using some aspects with inaccuracies.
Ability to design requirements for camping adventure	Designs well-structured requirements for camping adventure integrating diverse skills.	Designs well-structured requirements for camping adventure integrating most skills.	Designs requirements for camping adventure integrating some skills.	Designs requirements for camping adventure integrating some skills with inaccuracies.
Setting up a campsite Ability to examine features of a campsite for orientation, ● *(pitching tents, setting up a cooking area, building a fire pit, organizing food storage,*	Examines features of a campsite using 5-6 aspects competently.	Examines features of a campsite using 5-6 aspects.	Examines features of a campsite using 3-4 aspects.	Examines features of a campsite using 1-2 aspects.

DRAFT

Level / Indicators	Exceeds Expectations	Meets Expectations	Approaches Expectations	Below Expectations
setting up waste disposal, establishing a water source, arranging a hygiene area)				
Ability to perform activities in setting up a campsite for skill acquisition using the aspects: ● (*clearing the site, tent pitching, setting up fireplace, waste disposal site, water source/storage, food storage facility and hygiene corner*)	Performs camping activities in setting up a campsite using 8-10 aspects consistently.	Performs camping activities in setting up a campsite using 8-10 aspects.	Performs camping activities in setting up a campsite using 4-7 aspects.	Performs camping activities in setting up a campsite using 1-3 aspects.
Camping activities Ability to perform activities for camping adventure such as; *(trekking, wildlife watching, tree and plant identification, fun and recreational activities, campfire activities, first aid practice, eco talks, cook meals)*	Performs all activities for camping adventure with precision.	Performs all activities for camping adventure.	Performs some activities for camping adventure.	Performs some activities for camping adventure with inconsistencies.
